

COMMUNITY CATCH UP

JANUARY 2022

This month, CISMBC implemented a new curriculum for the students at both primary schools. Teaming up with Read United, Site Coordinators and tutors are using curriculum from the AARP Foundation. When students

are pulled weekly from exploratory classes they are now grouped with peers that are on the same reading level according to their MAP test scores. As students work through the program, they will eventually be able to take their book home when they can read it entirely.

In celebration of MLK Day each year, CISMBC AmeriCorps members participate in a service project that honors the servant's heart of Martin Luther King Jr. This year, Abigail and Caroline chose to participate in Cards for a Cause, an organization that seeks to uplift the spirits of disheartened, hospitalized, and/or seriously ill children by sending them encouraging homemade cards. They even got their families and friends to participate as well.

Throughout the semester, CISMBC staff will be frequenting Goodwill and other nearby thrift store locations in search of uniform items for the BCSD students. For just \$25, you can help supply local students with proper uniform items in order to keep them in school and help them achieve in life. Donating is as easy as clicking the link below and filling out the simple online form. Be sure to include #goodwillgoodies under the dedication section so we know how you are choosing to give. Thank you for your generous support!
